

# C.O.O.L

*Colors of our Land*

## ABOUT THE PROJECT

It is a Project based upon meeting new country and cultures in a funny and enjoyable way. We will work in international teams and try to reflect our countries' beauties and traditions through colors. We will introduce our food and drinks, landmarks, tourist attractions, handcraft, flag and flowers by colors. We will search for the question 'What color is your country?'

# AIMS

With this project our aim is to introduce our countries by colors. We will both learn and meet other country and cultures by the help of colors.

By this Project our aim is , To experience and familiarize with Other country/culture and traditions

To make students' use their creativity and imagination

To develop a European citizenship spirit.

To raise students' motivation, creativity and artistic skills

To improve students' and teachers' use of ICT skills and web 2 tools

To develop students English language skills

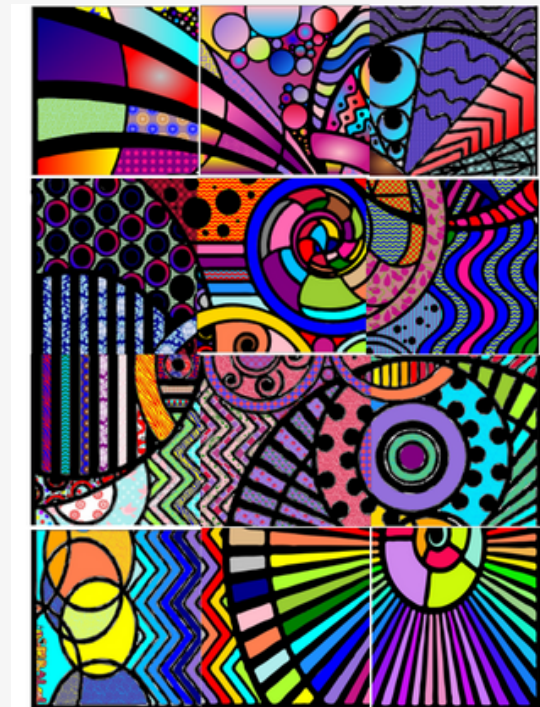

# EXPECTED RESULTS

With this project students will : develop their ICT skills and web 2 tools

develop a European citizenship spirit

practice their use of language skills

At the end of the project, we'll bring our slides together and form an e- book. We will also create an e-magazine, blog and exhibition.
