

AMAZING CROATIA

2020-2021

ABOUT THE PROJECT

"Amazing Croatia" is a Project which we want to do with a partner school from Turkey which we already know from this year's project "Let's travel through Europe". We want to share beauties of our country with Turkish pupils. We will send them a map of Croatia which they will need to fulfill with images. Images will be explained with QR codes made by our pupils. Behind the QR code will be a short text about the cities/national parks/famous people/animals and plants/events/cultural heritage ... Our plan is to send QR codes and images for Turkish pupils once a month and their task is to find the right place of the image on the map. At the end of the project they will present their map of Croatia and what they learned about Croatia.

CROATIA

TURKEY

AIMS

Aims: to expand students' cultural and geographical knowledge of Croatia, to cherish and preserve natural beauties and cultural heritage of our homeland, to develop ICT skills through QR codes, to use and improve English language through communication with Turkish students.
