

COOL KIDS

2020-2021

AIMS

1. Learning about problems of teenagers in different countries.
2. Developing of students' creativity and ability to learn on their own.
3. Learning to be a responsible member of an online community in an authentic and ongoing way.
4. Developing Teamwork and collaboration.
5. Developing students' digital literacy and ICT skills..
6. Making friends from foreign countries.

ABOUT THE PROJECT

In what ways are we similar to or different from teenagers living in other European countries? The aim of the cross-curricular project is to find out what is typical of teenagers' lifestyles in other countries and to compare them to their own. We would like to learn about different problems of teens. There is so much to discover and discuss! The students will be using English as a means of real communication and they will improve their ICT skills by using different ICT tools.

You don't have to be great
to start
but you have to start
to be great.

Let's start off this project
together! :)

EXPECTED RESULTS

It's expected that the students will gain new ICT skills and develop their knowledge about lifestyle of teenagers in different parts of the world. They will make new friends and share their experiences and knowledge. Students will develop their practical language skills, as they will create their own texts about things that they know
